

RETIRED RMT Information Sheet and Application Form

Once an RMT retires from working, AMTA offers the Retired RMT membership to enable that person to remain in contact with the profession.

This is open to an RMT who has completely retired from working in paid employment of any type. It is not available to someone who has retired from working as a music therapist, but continues to work in another profession. Many RMTs who have worked for many years in the profession before retiring from work choose this means of remaining involved in the music therapy community and association. This is also valued by the association as a means to keep their rich experience and knowledge within the profession.

There is, of course, a reduced fee for the Retired RMT membership. For fees and benefits please visit the website.

If you wish to apply for the Retired RMT membership, please complete the information below and return it to:

*National Secretariat
Australian Music Therapy Association
Suite 1, 1 Smith Street
Fitzroy VIC 3065
